Experience

Western Vice-Chair for Washington College Republican Federation

November 2013 - present

Recently elected to the executive board of the Washington College Republican Federation, my duties include my work at the PCCRs, as well as growing the College Republican clubs in Western Washington.

Vice-Chairman for Pierce County College Republicans

October 2013 – present

Networking with various Washington State political organizations to increase the PCCRs' reach and influence, I'm starting clubs at Pacific Lutheran University, Tacoma Community College, University of Washington Tacoma, and Pierce College's Lakewood and Puyallup campuses. I designed, developed, and manage the PCCRs' website; I also manage their social media sites.

Technical Field Specialist for Working Families

June 2013 – August 2013

Hired to help with the 2013 election cycle, my primary task was to collect voter identification data with Ground Game (v1.0 and v2.0). I sampled universes in Washington State's 26th Legislative District. I spent a great deal of time working with the developers at Moonshadow Mobile to fix the bugs plaguing Ground Game v2.0.

Deputy Field Coordinator for Hans Zeiger Campaign

May 2012 – November 2012

I assisted with many field jobs, including doorbelling and literature drops. I accompanied the campaign staff to various political fundraising events, and I worked the GOP booth at the Pierce County Fair.

Field Staffer for Enterprise Washington JobsPAC

Fall of 2012

I organized door-to-door surveying and literature drops, collecting voter identification data in Washington State's 25th Legislative District.
